

ECAF Order of Emergency Protection

[To ELECTED EOS BLOCK PRODUCERS] - ECAF Arbitrator Order # 2018-10-13-AO-015

2018-10-13-AO-015 00:10 UTC

Pursuant to Emergency Measures of Section 3.5 of the [EOS Core Arbitration Forum \(ECAF\) Rules of Dispute Resolution \(RDR\)](#), I, Bill Bozarth, have been named Emergency Arbitrator (EA) and have been appointed to review case numbers:

#ECAF00000487

As the Emergency Arbitrator of the case **ECAF Arbitrator Order # 2018-10-13-AO-015** I am issuing the Order of Emergency Protection to all EOS Block Producers.

Said emergency measures are:

- The refusal to process transactions of any kind for the affected EOS account names and/or public keys, pending further review of the case by an Arbitrator.

The order is as follows, all EOS Block Producers refuse to process transactions for the following accounts and keys. Until further official notice and instruction from the Arbitrator of this case.

EOS Account Names:

guzdanrugene
earthsopl1sys

It is also requested that any and all evidence relating to this account be forwarded to the Arbitrator. Please reference the case number #ECAF00000487, from above for the appropriate case and provide the additional evidence via the [ECAF file a claim form](#).

Case Details

A claim has been filed naming the EOS Account: **guzdanrugene and earthsopl1sys** contesting the ownership and/or control of these accounts and the transfer of assets without permission or just cause.

ECAF Order of Emergency Protection

[To ELECTED EOS BLOCK PRODUCERS] - ECAF Arbitrator Order # 2018-10-13-AO-015

The Arbitrator has been provided credible evidence to suggest there is a case to answer to. The sharing of the evidence is through the guidance of [Rules of Dispute Resolution 5.8 Transparency/Confidentiality](#).

Discovery

- The Claimant, guzdanrugene and earthsop1sys, has alleged their account permissions have been changed without permission or justification and the majority of the EOS has been unstaked.
- Claimant provided proof of ownership of ETH account that was used for genesis registration of EOS account guzdanrugene. Attached Section A
- Block records show that the 2nd account, `earthsop1sys`, was created by the claimant's 1st account. Attached Section B
- Claimant attested that Respondent obtained their private key via false pretences on a allegedly fake EOS Black site.
- The Claimant provided personal identification. Attached Section C
- Block records show the Respondent has changed the permissions of the account in question.
- Claimant filed a claim with ECAF and has provided requested information in a timely manner.

Until the case is finally resolved by a ruling from the Arbitrator, [ECAF Rules of Dispute Resolution, Section 6](#), it is hereby notified that the accounts may be under the control of unauthorised persons, and you, Block Producers, are advised to not accept transactions unless you have confirmed that the instructions are issued by the rightful owners.

Please note that this is only an emergency order for protection of assets. The purpose of this order is to secure possibly at-risk assets pending further investigation of the case. An emergency order is **not** a ruling or decision upon the matter of the case itself. It should not be understood as an implication of wrongdoing by any party.

Attachments Section A: Proof of control of Ethereum account used to register for EOS genesis account

Claimant's Ethereum account and mapping to EOS genesis account.

The screenshot shows a web interface for checking EOS accounts. At the top, it states "You had a total of 4774.9018 EOS on launch". Below this, it says "Your EOS is accessible with keys matching" followed by two lines of EOS public keys: "EOS5nfC13jQkKpym8ufrwHt3kVmJGQSNxnXwuFIKEUP" and "AdMj2L9Hed.". The interface then lists two bullet points: "Your EOS account name on launch was **guzdanrugene**" and "View your account on the EOS Mainnet click here". Below the bullet points, it says "Just keep your EOS private key safe and use it on the mainnet!". Further down, it says "For important updates join us on Twitter or Telegram". A disclaimer at the bottom reads "*This is a free tool with no guarantees on the accuracy of this data.". At the very bottom, there is a white rounded rectangle containing the hexadecimal string "0x147E7A5CB03d38a8D286dc15539f86B0aAda9504" and a blue button labeled "Check my EOS".

Claimant proved they have control of the Ethereum account used to register for an EOS genesis account by cryptographically signing a message transferring an amount of ETH exactly corresponding to the claim number as requested.
