

# ECAF Order of Emergency Protection

---

[ To ELECTED EOS BLOCK PRODUCERS ] - ECAF Arbitrator Order # 2018-10-03-AO-012

2018-10-05-AO-012 13:00 UTC

Pursuant to Emergency Measures of Section 3.5 of the [EOS Core Arbitration Forum \(ECAF\) Rules of Dispute Resolution \(RDR\)](#), I, Bill Bozarth, have been named Emergency Arbitrator (EA) and have been appointed to review case numbers:

#ECAF00000261

#ECAF00000198

As the Emergency Arbitrator of the case **ECAF Arbitrator Order # 2018-10-03-AO-012** I am issuing the Order of Emergency Protection to all EOS Block Producers.

Said emergency measures are:

- The refusal to process transactions of any kind for the affected EOS account names and/or public keys, pending further review of the case by an Arbitrator.

---

**The order is as follows, all EOS Block Producers refuse to process transactions for the following accounts and keys. Until further official notice and instruction from the Arbitrator of this case.**

## **EOS Account Names:**

g4ytenbxgqge,  
jinwen121212,  
ha4tomztgage,  
mylsteosobag,  
iloveyouplay,  
eoschinaeos2,  
eosholderkev,  
dreams12true,  
imarichman55

It is also requested that any and all evidence relating to this account be forwarded to the Arbitrator. Please reference the case number #ECAF00000XXX, from above for the appropriate case and provide the additional evidence via the [ECAF file a claim form](#).

# ECAF Order of Emergency Protection

---

[ To ELECTED EOS BLOCK PRODUCERS ] - ECAF Arbitrator Order # 2018-10-03-AO-012

## Case Details

A claim has been filed naming the EOS Account: `g4ytenbxgqge` and `ha4tomztgage` contesting the ownership and/or control of these accounts and the transfer of assets without permission or just cause.

The Arbitrator has been provided credible evidence to suggest there is a case to answer to. The sharing of the evidence is through the guidance of [Rules of Dispute Resolution 5.8 Transparency/Confidentiality](#).

## Discovery

- Two Claimants, Claimant 1 - `g4ytenbxgqge` & Claimant 2 - `ha4tomztgage`, have alleged the same Respondent, `imarichman55`, fraudulently represented support only to take control of their accounts.
- Claimant provided proof of ownership via memo with EOS purchasing ETH account. Attached Section A
- The Claimants provided an account of the communications with the Respondent requesting the transfer of assets under allegedly false pretenses. Translated to English in line. Attached Section B & Section C
- Block records show the Claimant transferring assets to the Respondent's account under allegedly false pretenses.
- Claimant filed a claim with ECAF and has provided requested information in a timely manner.

Until the case is finally resolved by a ruling from the Arbitrator, [ECAF Rules of Dispute Resolution, Section 6](#), it is hereby notified that the accounts may be under the control of unauthorised persons, and you, Block Producers, are advised to not accept transactions unless you have confirmed that the instructions are issued by the rightful owners.

Please note that this is only an emergency order for protection of assets. The purpose of this order is to secure possibly at-risk assets pending further investigation of the case. An emergency order is **not** a ruling or decision upon the matter of the case itself. It should not be understood as an implication of wrongdoing by any party.

When leading-in the original version of the Ethernet wallets, the system will be automatically dropped

Hello, how to leading-in exactly?

2.0 restore identity, will the older version of EOS be led in?

Pre-empted the private key of the old Eth wallet at first, and then download the version 2.0 new wallet, choose to re-store identity

No, leading-in the mapped EOS wallet private key after recovery

Okay, thanks. I'll try it.

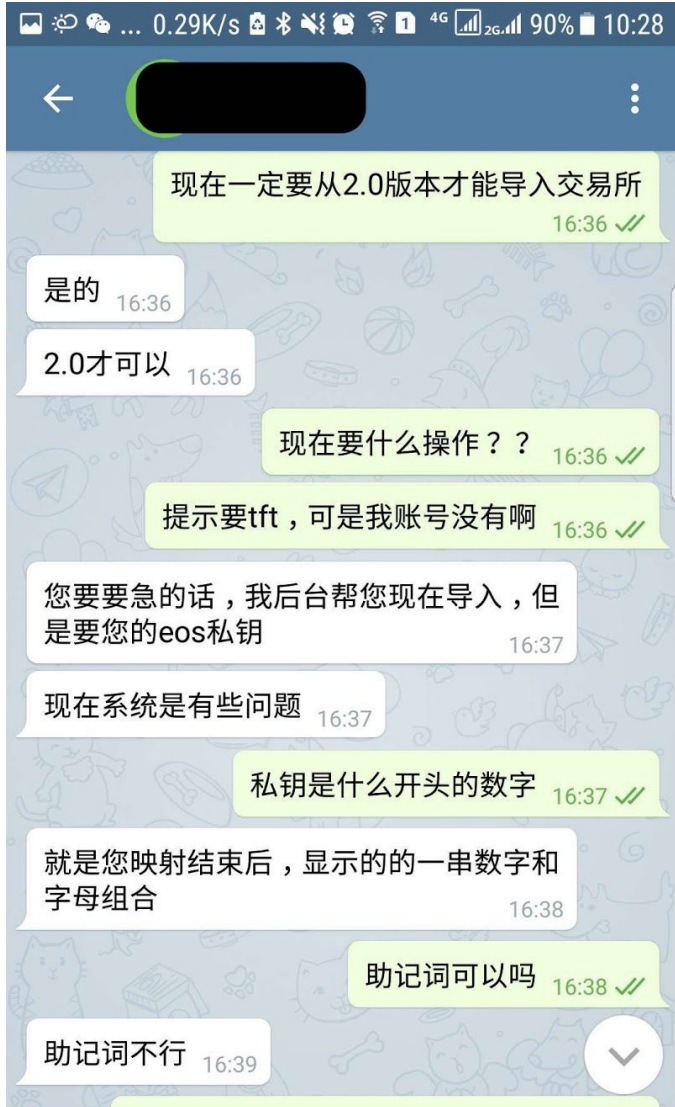

You're welcome.

Please feel free to contact if you have questions.

Hello, I have led-in the old version of wallet. How can 2.0 be led-in mapping EOS wallet private key?

# ECAF Order of Emergency Protection

[ To ELECTED EOS BLOCK PRODUCERS ] - ECAF Arbitrator Order # 2018-10-03-AO-012

You must now lead-in the exchange from version 2. 0

Yes

Only 2.0

What's the operation shall I do now?

Need tft, but I don't have an account.

If you're in a hurry, I'll llead-in it for you now, but we need your eos private key.

Now the system is having some problems.

What is the beginning number of the private key

It is a series of numbers and letters displayed after your mapping.

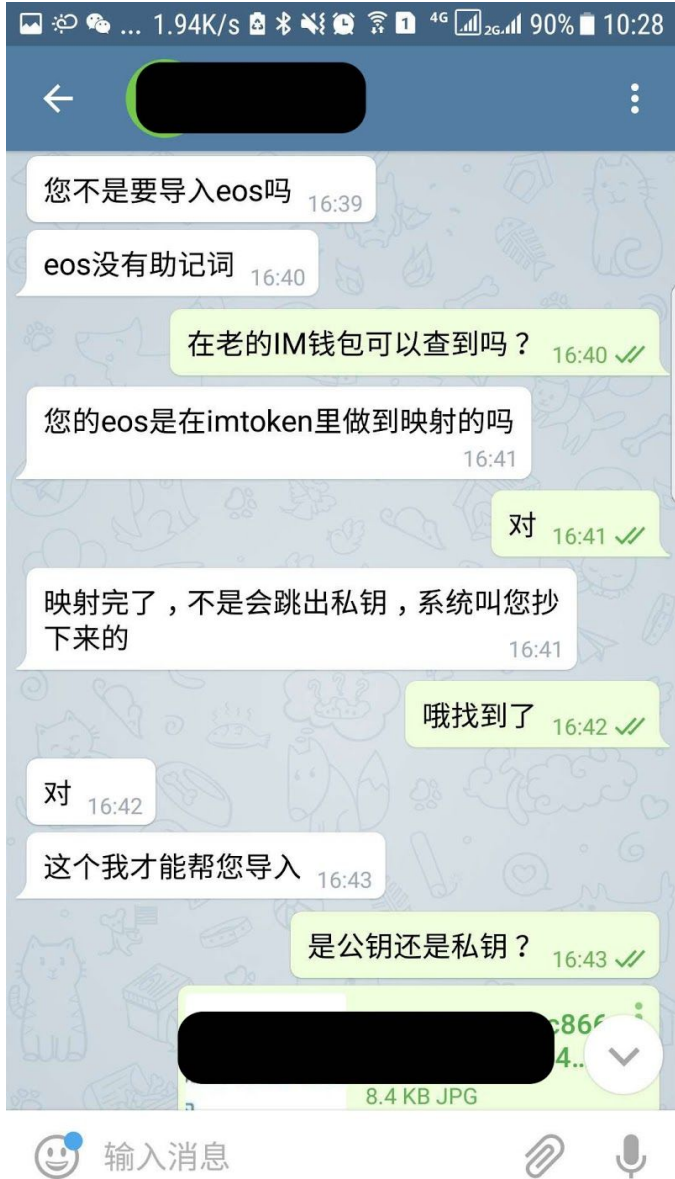

Will mnemonic be all right?

Mnemonics doesn' t work

# ECAF Order of Emergency Protection

[ To ELECTED EOS BLOCK PRODUCERS ] - ECAF Arbitrator Order # 2018-10-03-AO-012

Don't you want to lead-in eos?

Eos has no mnemonic

Can I find my old Imtoken wallet?

Do your EOS mapped in imtoken?

Yes

When the mapping is over, not the private key, the system told you to copy it down

Oh, there it is.

Yes

That's what I can do for you.

Is it a public key or a private key?
