

ECAF Order of Emergency Protection

[To ELECTED EOS BLOCK PRODUCERS] - ECAF Arbitrator Order # 2018-10-05-AO-013

2018-10-05-AO-013 13:30 UTC

Pursuant to Emergency Measures of Section 3.5 of the [EOS Core Arbitration Forum \(ECAF\) Rules of Dispute Resolution \(RDR\)](#), I, Bill Bozarth, have been named Emergency Arbitrator (EA) and have been appointed to review case numbers:

#ECAF00000471

As the Emergency Arbitrator of the case **ECAF Arbitrator Order # 2018-10-05-AO-013** I am issuing the Order of Emergency Protection to all EOS Block Producers.

Said emergency measures are:

- The refusal to process transactions of any kind for the affected EOS account names and/or public keys, pending further review of the case by an Arbitrator.

The order is as follows, all EOS Block Producers refuse to process transactions for the following accounts and keys. Until further official notice and instruction from the Arbitrator of this case.

EOS Account Names:

gizdcnjyg4ge

It is also requested that any and all evidence relating to this account be forwarded to the Arbitrator. Please reference the case number #ECAF00000XXX, from above for the appropriate case and provide the additional evidence via the [ECAF file a claim form](#).

Case Details

A claim has been filed naming the EOS Account: **gizdcnjyg4ge** contesting the ownership and/or control of these accounts and the transfer of assets without permission or just cause.

The Arbitrator has been provided credible evidence to suggest there is a case to answer to. The sharing of the evidence is through the guidance of [Rules of Dispute Resolution 5.8 Transparency/Confidentiality](#).

ECAF Order of Emergency Protection

[To ELECTED EOS BLOCK PRODUCERS] - ECAF Arbitrator Order # 2018-10-05-AO-013

Discovery

- The Claimant, gizdcnjyg4ge, has alleged their account permissions have been changed without permission or justification and the majority of the EOS has been unstaked.
- Claimant provided proof of ownership of ETH account that was used for genesis registration of EOS. Attached Section A
- Claimant provided evidence of a private key checker the Claimant alleges transferred their private key to the Respondent. Attached Section B
- The Claimant provided personal identification. Attached Section C
- Block records show the Respondent has changed the permissions of the account in question.
- Claimant filed a claim with ECAF and has provided requested information in a timely manner.

Until the case is finally resolved by a ruling from the Arbitrator, [ECAF Rules of Dispute Resolution, Section 6](#), it is hereby notified that the accounts may be under the control of unauthorised persons, and you, Block Producers, are advised to not accept transactions unless you have confirmed that the instructions are issued by the rightful owners.

Please note that this is only an emergency order for protection of assets. The purpose of this order is to secure possibly at-risk assets pending further investigation of the case. An emergency order is **not** a ruling or decision upon the matter of the case itself. It should not be understood as an implication of wrongdoing by any party.

Thank you,

Bill Bozarth, ECAF Emergency Arbitrator

Attachments Section B: Alleged compromise of private key

Claimant alleges that they used a private key checker that informed them that their private key was invalid whilst actually sending the private key to the Respondent.

Offline tool to verify your EOS private key and map to public key

Steps to running this tool with peace of mind!

1. Turn your device offline. This page will work without an internet connection.
2. Paste your EOS private key and then click on "Map to EOS public key"
3. Your EOS private key and corresponding public key will show up. All done! You can close this page and then turn on internet connection :)

Other info and resources

- Register your EOS public key before EOS mainnet launch. You can use [EOSauthority](#) to check
- Review [code for this tool on github](#). Contact us at eos@webdigi.co.uk

EOS private key

5jCYsHCg

[Map to EOS public key.](#)

EOS public and private key

Your private key maps to the public key as shown below

Public key DO NOT USE

Private key DO NOT USE Private key is invalid, please try again.

Attachments Section C: Proof of Identity

Claimant provided proof of Identity.
